

**Thanks to everyone who participated and made GeoSmart India 2022 a grand success.**

The event was hosted by the Geospatial World and co-hosted by the Indian Society of remote sensing and the Indian society of Geomatics. The aim of this event was to discuss the most challenging socio-economic issues hindering growth; facilitate networking among the geospatial community consisting of government, mapping agencies, researchers, academics, private industries, and users of geospatial information.

## Day 1

Shri Gajendra Singh Shekhawat, Union Jal Shakti Minister, launched the GeoSmart India 2022 Summit in Hyderabad and stated that the country is at the forefront of a new wave of socioeconomic prosperity powered by cutting-edge technology and innovation. The collection, production, and dissemination of geospatial data have been democratized.

## Day 2

Amit Seymour, Director of SATPALDA addressed the event on the topic "Towards Smart & spatially connected Governance". He gave an overview of the company and services provided by the company focusing particularly on Smart city strategies such as smart city planning and redesigning, redevelopment, retrofitting, and greenfield. He also discussed various applications, including Digital Twin, Property Tax Evasion Using GIS, and Water Resource Management: Utility, Risk, and Prevention.

## Day 3

Our International Business Specialist and Geospatial Expert, Mr. Yashwant Singh, spoke on "Geospatial Data and Services for Water Resource Management." It was followed by a demonstration on "Modern Technologies in Linear Infrastructure/Railways" by Nikhil Saini Business Development Manager.

Our network expanded as we met with more geospatial professionals on day three as well.

SATPALDA is a leading provider of geospatial products and services. The company is also a reseller of multiple satellite data products and has a proven track record of delivering project-critical geospatial products, including satellite imagery, UAV imagery, 3d models, elevation models, GIS, LULC maps, planimetry, terrain solutions and many more.
